

Hexagon Metrology Calibration Service Options

In order to better serve our customers Hexagon Metrology is now offering four levels of calibration service. When you call for your pricing please let us know what level you would like us to quote. The pricing is all inclusive and is based on the size of your machine and your location.

- 1. Bronze:** Standard B89 4.1 Calibration (after data only)
- 2. Silver:** Advanced B89 4.1 Calibration (includes before and after data)
- 3. Gold:** Standard B89 4.1 Calibration (after data only) for two consecutive years. Note: the cost for the second year calibration is discounted by 10%.
- 4. Platinum:** Advanced B89 4.1 Calibration (includes before and after data) for two consecutive years. Note: the cost for the second year calibration is discounted by 10%.

Preventative Maintenance is available for purchase with all levels. This is generally performed six months after certification or calibration.

	Bronze	Silver	Gold	Platinum
Clean machines as necessary to provide accurate measurements	X	X	X	X
